

HOW TO CREATE AND SAVE
A SiGGiE iMAGE THEN
UPLOAD iT TO THE GALLERY
AND ADD iT TO YOUR
FORUM SiGNATURE

FOR PSE USERS

siggie tutorial for PSE Users

create your siggy

Start off with a 12" x 5" canvas and build your siggy. I like to start with a white background and an alpha

jenYurko

and build from there

when you've finished building your siggie, delete the background layer (if you started with one)

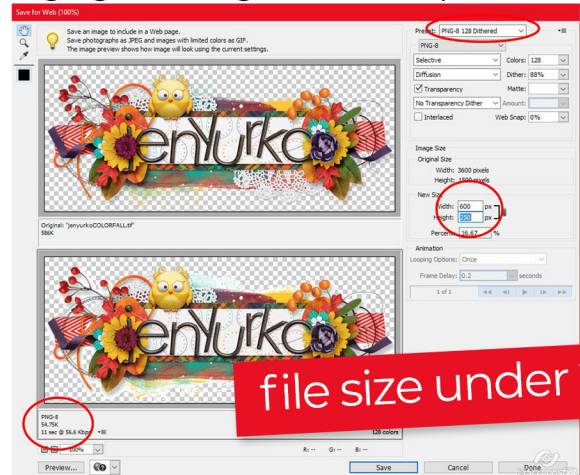

don't forget to save a layered copy of your file :)

then save for web

Go to File > Export > Save for Web

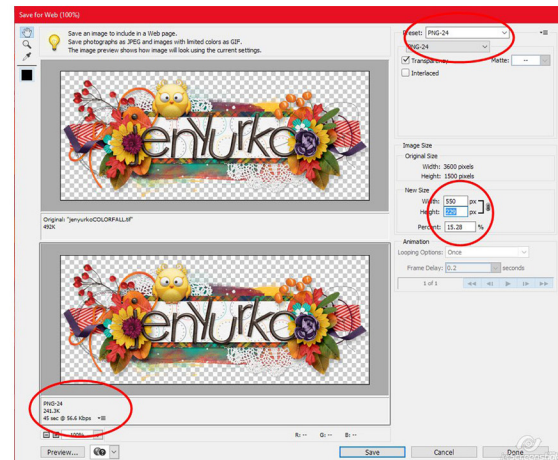

There are 3 exporting options:

Save with the PNG-8 preset
changing the image size to 800px or 600px

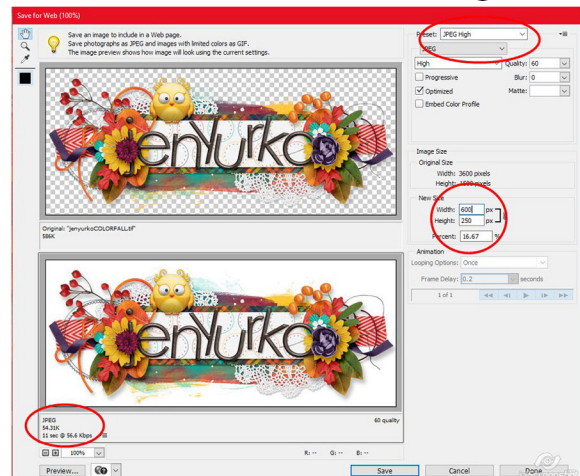

file size under 250k

sometimes this will throw white pixels around your image, so try saving with PNG-24 instead. file size is a bit bigger, so adjust your image size

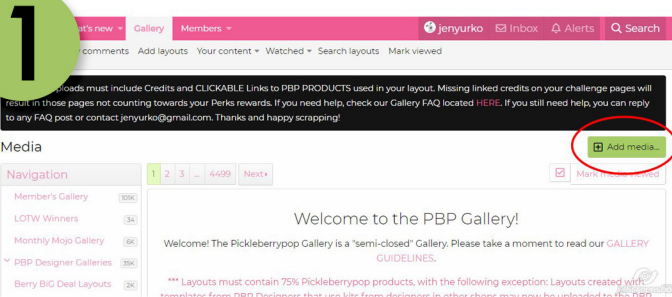

or you can save using the JPG preset
(do not use if you are going to put it on a site that does not have a white background)

HOW TO UPLOAD TO THE GALLERY

Go to the Gallery and click on Add Media

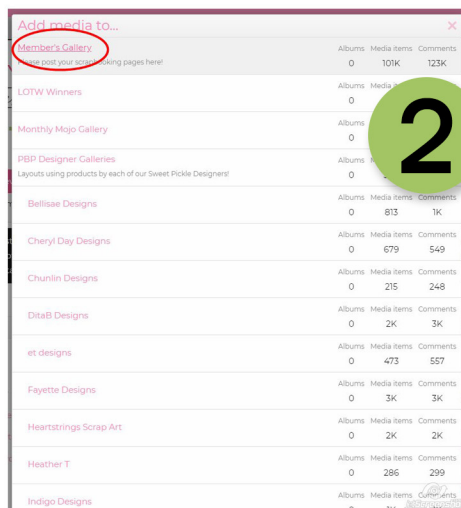

Add the Title, LINKED credits, then click on the Show link

4

The screenshot shows the 'Add media: Member's Gallery' form. A green circle with the number '4' is next to the 'Show' link in the 'Additional categories' section, which is circled in red. The form includes fields for Title, Description, and Tags, and a 'Save' button at the bottom.

Click on Member's Gallery

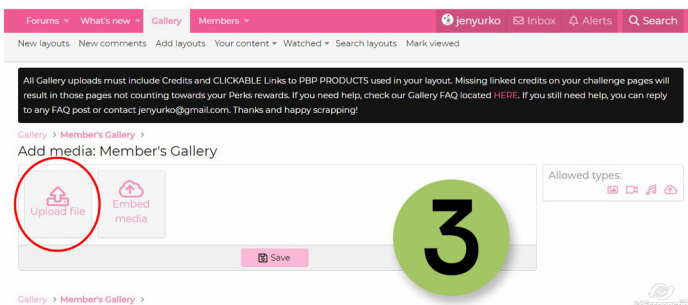

If your siggie is for a mojo challenge, check the box for Monthly Mojo Gallery, then check any additional boxes for the appropriate designer galleries. Add tags if you'd like, then click save

5

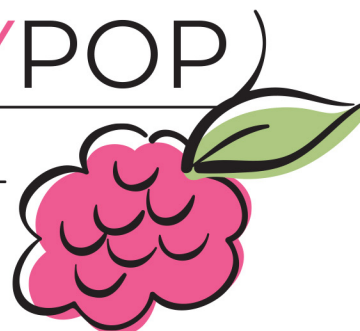

The screenshot shows the 'Add media: Member's Gallery' form. A green circle with the number '5' is next to the 'Save' button at the bottom, which is circled in red. The form includes checkboxes for 'Additional categories' and a 'Tags' field.

Click on the Upload File button

HOW TO ADD AN IMAGE TO YOUR FORUM SIGNATURE

Right click on your siggie in the gallery and click on Copy image address

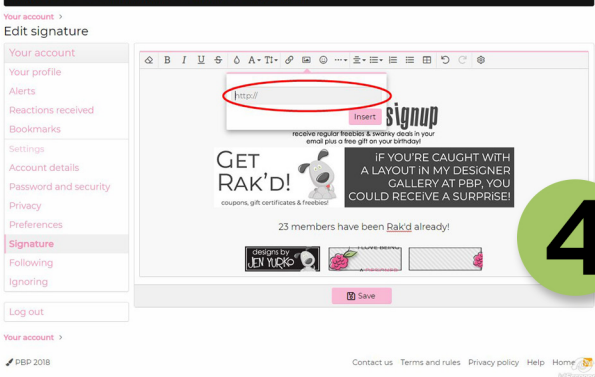

Click on your name on the pink menu bar, then click on signature

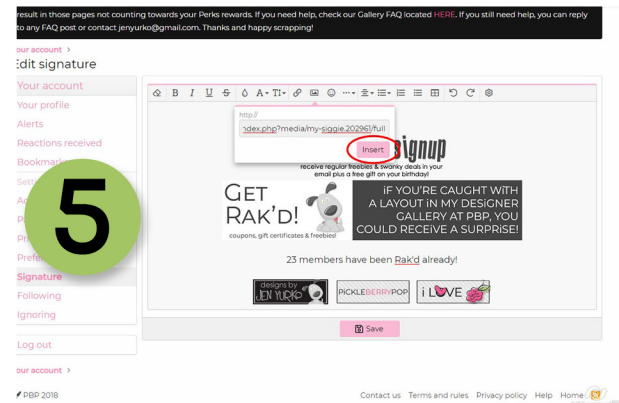

Click on the Insert Image icon

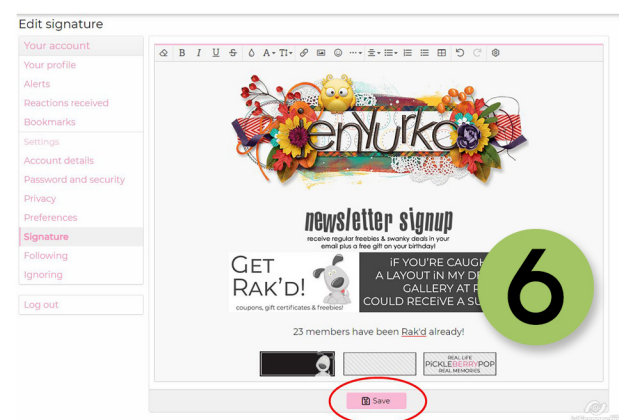

You'll get a little popup box for a link, paste your siggie image link that you just copied into this box

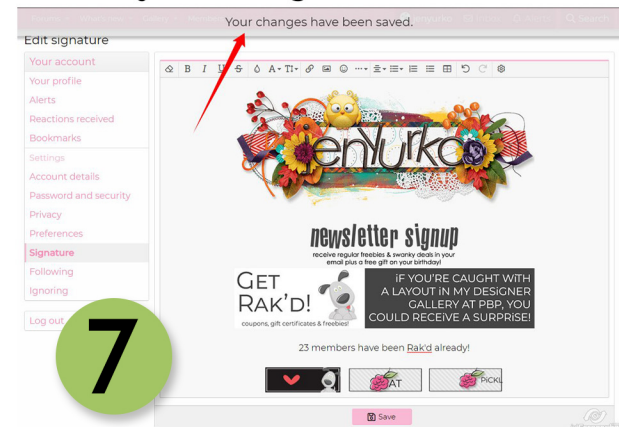

Then click on Insert

Then click on Save

A message will flag at the top of the page that your changes have been saved
